

# WINDOWS MEDIA CENTER IS NOW HERE!

Customers can now experience more of the photos, music, television, movies, and games you want throughout their homes with Microsoft® Windows® XP Media Center Edition 2005. It's powerful, easy to use, and offers connectivity throughout the home and on the go.

## Top Ten Reasons to Buy Windows® XP Media Center

1. The most complete Microsoft® Windows® experience designed for the home, with features not available anywhere else.
2. Developed as the family room entertainment center.
3. Enjoy more of your entertainment all in one easy-to-use place.
4. Easily transfer, touch up and share photo slide shows with music.
5. Burn and back up music, photos, recorded TV and home movies onto CD or DVD.
6. Discover, watch, pause, rewind and record live TV – all with no service fees.
7. The first home computer OS designed for enjoying High Definition quality via TV, DVD or even the Web.
8. Enjoy it in any room in the house with Media Center Extender and compatible devices.
9. Take more of your entertainment on the go with Portable Media Centers or a wide range of music players.
10. Connect to movies and music in your living room—on demand.
